Building evidence
for conservation
globally for

years

For a quarter of a century, the **Journal of Threatened Taxa (JoTT)** has been serving a critical role in conservation. Every month, without fail, the pages of this open access online publication fill up steadily with words that describe the wonders of the natural world — as observations, scientific experiments, or opinions — serving over 120,000 readers across the world.

Zooreach/WILD Activity Update

The mission of the **Journal of Threatened Taxa**

<<https://threatenedtaxa.org/>> is to serve the biodiversity community of researchers and conservationists by providing quick & easy access to peer-reviewed publications critical to their respective fields for conservation and/or for academic research & interest.

- JoTT is established to build evidence for conservation and allied fields including and not restricted to taxonomy, ecology, disease, surveys, assessments, management, etc. to the wildlife community, scientists, academics, educators, policy makers, managers, and the general public.
- JoTT charges a very reasonable article processing fee to publish. It follows the 'Gold Open Access' standards where readers are not charged for subscription. There are no page charges or any other hidden charges apart from the article processing charge.
- JoTT strives to maintain high scientific standards in this regard, encourages a broad stream of subject areas, authors, global participation, and publications without bias or prejudice.
- JoTT does not promote exclusivity in its choice of publications or pursue popular practices to build up the journal marketing benchmark of higher impact.
- JoTT does not select manuscripts to publish with marketing intensions at the cost of invaluable data to science.
- JoTT mentors new entrants and others in publishing scientific articles of high standard through the participation of several volunteer scientists (for peer review & editing) from around the world.
- JoTT helps with English language editing of articles, to those in need of such assistance and from non-native English speaking countries, to bring it to standards of adequate communication.

JoTT is published on the 26th of every month. As of 01 April 2025, 330 issues (ZPJ & JoTT), almost 29,700 pages, and 4,157 articles (965 in ZPJ and 3,192 in JoTT) have been published.

Publication data of 2024 is given below:

**Volume 16 | 12 issues (January–December)
| 1,880 pages | 230 publications.**
