RECEIVE FULL AND PARTIAL SCHOLARSHIPS

A community of career conservationists to lead the world into restoring wildlife.

Ram Hattikudur Advanced Training in Conservation (2025-26)

Building a community of career conservationists to lead the world into restoring wildlife

At Zooreach we are passionate about enabling aspiring conservationists acquire skills and techniques to achieve career goals in conservation. The Ram Hattikudur Advanced Training in Conservation (RHATC) course provides access to the youth to opportunities in sharing of ideas and exposure to experts in the field. It is a perfect platform for young aspirants and early career conservationists to learn from an amazing team of talented mentors, resource persons, and experts on various aspects of contemporary conservation principles, science, philosophies, politics, finance, methods, tools & techniques, assessments, planning, actions, policies, applications, and challenges among others so as to stand on the shoulders of giants to tackle practical and contemporary conservation issues objectively, scientifically, inclusively, democratically, and holistically.
