

## Membership in Amphibian Ark

Become a member of the Amphibian Ark and help save the world's frogs, salamanders and caecilians.

Anyone can join - we can all be a part of the AArk!

Become a member of the Amphibian Ark for free!

Join our friends Sir David Attenborough, Jeff Corwin, Jane Goodall and Jean-Michel Cousteau as members of the Amphibian Ark!

- Receive the electronic Amphibian Ark Newsletter every three months.
- Show your support for global amphibian conservation.
- Check out what some of our amazing supporters and donors have achieved:

A second grade class in Upper Arlington, Ohio donated \$1,762.50 which they raised by holding a frog book read-a-thon, selling tote bags, having a craft sale, and a bake sale. Our thanks go to Columbus Zoo for bringing this class and the Amphibian Ark together.

Adults and children alike have asked that donations be made to Amphibian Ark to celebrate special occasions like weddings, birthdays, graduations, bar and bat mitzvahs - this is a very generous thought, and is very much appreciated.

School children in Bisbee, Arizona, who wanted to do a good deed for amphibians before their school was closed due to budget cuts. They raised \$109 to help with amphibian conservation.

Proceeds from book sales, bake sales and naming rights for new amphibian species all have benefited the Ark!

Our supporters have been amazing in their commitment to helping us - your generous donation will help save amphibians!

A special offer from the Amphibian Ark! If you make a donation of US\$100 or more, you will receive a copy of *Sapos* a beautiful book which covers dozens of frogs from Ecuador with fantastic imagery, both natural and man-made in its 256 pages (available while supplies last).

Amphibian Ark also seeks corporate, academic and private partners to help with major programs that directly contribute to saving species. These include:

- International internships - \$1,000 - \$5,000
- Amphibian Ark Grant Program - \$5,000
- Amphibian Ark range country prioritization or training workshop - \$5,000 - \$20,000
- Population monitoring project in range country - \$10,000
- Range-country rescue facility - \$50,000
- Disease testing laboratory - \$100,000
- Sponsor initiation of range country program - \$100,000

Please contact the Amphibian Ark directly if you would like to become a partner in any of these initiatives.

*\*As Amphibian Ark is a collaborative project between the IUCN Amphibian Specialist Group (ASG), the IUCN Conservation Breeding Specialist Group (CBSG), and the World Association of Zoos and Aquariums (WAZA), donations to the Amphibian Ark are held by CBSG under the Global Conservation Network, a registered 501(c)(3) charity.*
