

Master Plan for Mysore Zoo - 2020 — An integrated and planned approach for a vibrant zoo

A visit to Mysore Zoo is an essential part of every childhood in the State. All Mysoreans value its role in their life. It also draws regular visitors from interstate and overseas. In recent years Mysore Zoo has changed substantially. In keeping with modern animal management and animal husbandry, the animal enclosures and practices are constantly being modified. The Zoo has done considerable progress in education, research, breeding of threatened and endangered species and conservation. Still, there are many areas where the Mysore Zoo can expand and improve its facilities to continue its profile as a world-class Zoo. In this regard Mysore Zoo is planning to have a Master Plan 2020 for its over all systematic development on scientific lines and in a sustainable manner.

I know that without your valuable suggestions and critical comments the plan would be incomplete. Therefore, Mysore Zoo earnestly requests you to put your wisdom and expertise so as to enable us to prepare a perspective plan for future development of our Zoo - Mysore Zoo.

Highlights :

1. A scientifically designed animal enclosure blue print for the future.
2. Animal collection plan.
3. A guide for visitor friendly and systematic development.
4. Takes into consideration the projected visitors needs of 20 - 25 lakhs annually by 2020.
5. Better health care management and research programmes.
6. Breeding of selected endangered and exotic species in congenial atmosphere.
7. Envisages steps to introduce innovative Educational Programmes for fulfilling conservation objective.
8. Development of Karanji Lake Nature Park.
9. Achieving self sufficiency through consolidation of additional revenue.

Let us together shape the zoo of tomorrow

Please do pen down and send to the undersigned at the earliest. Preferably before 31st August, 2005.
