c. 1935	Erstwhile Palamau District, Jharkhand	Cheetah believed to survive in Palamau	Houlton, 1949

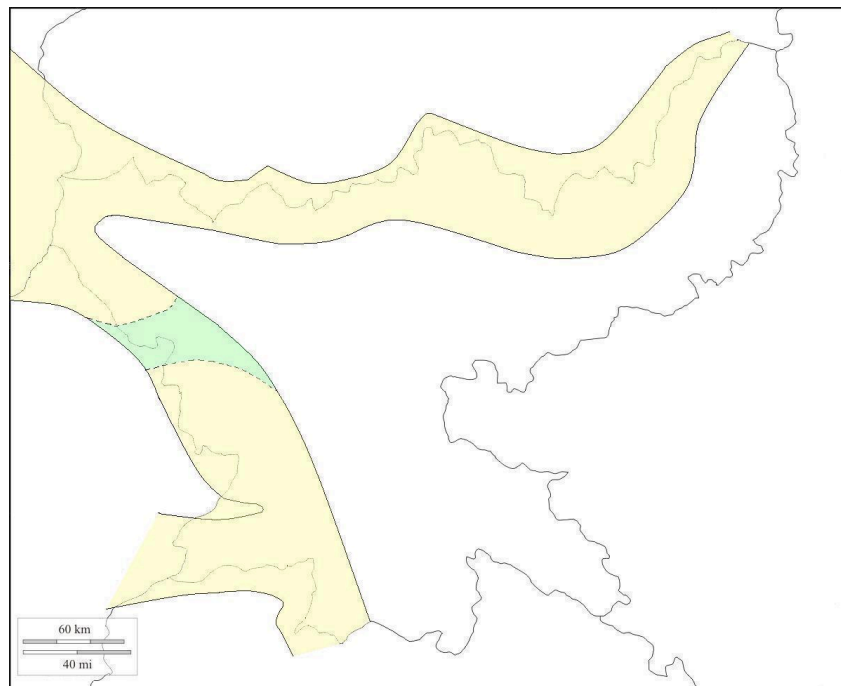

# The format of this Table is based on the Table published in Divyabhanusinh's book.  
*The End of a Trail: Cheetah in India.*

# In spite of numerous efforts, I could not find the current locations of Somij and Bendee villages. Though I will keep trying, it's possible that these villages have ceased to exist/ were shifted out during the settlement of Saranda Reserved forest/ had their names changed.
