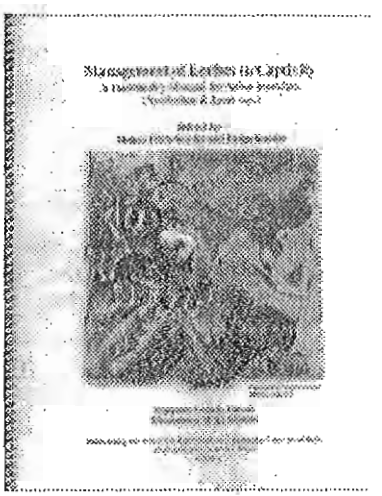
Management of Lorises in Captivity :A Husbandry Manual for Asian Lorisines (*Nycticebus* & *Loris* ssp.)



Perhaps for the first time a sort of handbook and husbandry manual on the management of those most charming and smallest of Asian primates has been brought out. The Manual consists of sections by eleven different loris specialists and has been edited by Helena Fitch-Snyder and Helga Schulz, compiled by Lena C. Larson and published by the Center for Reproduction of Endangered Species (CRES), Zoological Society of San Diego, P.Box No. 551, San Diego, CA 92112, U.S.A.

Just about everything one could want to know about lorisines is contained in the Manual. Some of it will be hard to apply in some zoos in South Asia but this may represent a goal to strive for rather than to be seen as an obstacle.

There is no better way to convey the contents than to simply list them. The Manual is straightforward husbandry and management, contains simple and clear illustrations (contributed by Helga Schulze), and many informative tables.

Again, for those of you who want the entire book, better to write to CRES, address above. For short sections that you (or your lorises) can't live without, we will xerox and send it to you at cost described on page -----. We have listed page numbers so you can better figure out what you want and how much it will cost.

Table of Contents

Taxonomy and Description 1
Distribution and Status 7

History of Lorises in Captivity 13

Behaviour 14
Introduction 14
Social Behaviour 14
Housing and Social Behaviour 15
Aggressive Behaviour 16
Loris Ethogram 18

Reproduction 28
Determining Gender 28
Adolescent Development 29
Estrous Cycles 30
Gonadal Morphology in Males 30
Copulation 32
Gestation 33
Parturition 33
Reaction of Others to Newborns 34
Resumption of Estrus 35
Interbirth Interval 35
Reproductive Seasonality 36
Litter Size 38
Infant Development and Parental Behaviour 39
Captive Reproductive History 41

Infant Care 45
Birth Management and Hand Rearing 45
Hand Rearing 45
Post-Partum Observations and Evaluation 45
Alrternatives to Hand Rearing 45
Physical Needs 46
Physical Needs: Species-Specific Concerns 49
Social Needs 50

Diet 52
Diet Composition in the Wild 52
Diet Composition in Captivity 53
Diet Composition in Captivity for the Pygmy Loris 55

Health
Review of Loris Clinical Information and Pathology Data From the San Diego Zoo: 1982-1995
Introduction 60
Preventive Medicine 60
Anesthesia 60
Clinical Pathology 61
Medical Review 61
Summary 65
Tables 66

Habitat Design
Minimum Standards for Housing Asian Lorisines (Adapted from AZA guidelines for the Family Lorisidae)
General Habitat Design 72
Temperature Levels 78
Lighting Conditions 78
Cleaning Cages 79
An Enriched Environment 80
Mixed Species Housing 88
