

World Wide Web Sites

related to zoo, wildlife and veterinary medicine

While internet is still not common in India, it is growing more popular and available day by day. For those of you who have it -- and for those who are thinking of getting it -- here are some choice web sites to tempt you, compiled by a few zoo and wildlife publishers.

Compiled by Dr. Paolo Zucca and published in World Association for Wildlife Veterinarians WAWV Newsletter, Volume 5, October 1996, No. 24

The number of Veterinary World Wide Web sites is increasing rapidly. Below there is a selection of web sites which in some way deal with Wildlife Medicine. All these sites can also be located in the largest Veterinary-related site resource which is the WWW Virtual Library of Veterinary Medicine at the NetVet Veterinary Resources website, of Ken Boschert, Washington University, USA, at the addresses below.
