ZOO OUTREACH ORGANISATION WILDLIFE INFORMATION BANK AND EXCHANGE SYSTEM

Z.O.O. W.I.B.E.S. has had an excellent response. Many zoo and wildlife veterinarians and other zoos personnel have ordered reprints. Also zoo and wildlife professionals from many fields have sent reprints to be included in the information bank. Most of these have been categorised in one of the many wildlife categories and are included here.

This list of articles consists of the articles we have received since the last time we printed ZOO WIBES information. These articles will be incorporated with the earlier listing and made into a small booklet every six months to one year. This booklet, which will also include the complete list of ZOO ZEN subject matter for nearly 10 years, can be ordered from us for Rs. 50/-

To order from the bank: Individual articles are priced at our cost depending on the number of pages. To order an article from WIBES, state clearly the category, name and author of the articles you want and the amount. If the order is less than Rs. 20/- you may like to send stamps instead of cash. Write clearly your full name, address and pin code. If an order goes astray because of an incomplete address, we may not be in a position to replace them.

To contribute to the bank: If you have published articles about aspects of veterinary medicine and husbandry and your article is not in our bank, you are encouraged to send an original reprint or very good xerox copy to us for listing in WIBES. ZOO WIBES is subsidised by the International Academy of Animal Welfare Sciences and has links with the Wildlife Information Network.
